Quality Safety Consultants Limited (QSC Safety) is committed to driving out acts of modern-day slavery and human trafficking within its business and that from within its supply chains, sub-contractors, and partners. The Company acknowledges responsibility to the Modern Slavery Act 2015 and will ensure transparency within the organisation and with suppliers of goods and services. These as well as the suppliers of services make up the supply chain within QSC Safety. As part of the companies' due diligence processes into slavery and human trafficking the supplier approval process will incorporate a review of the controls undertaken by the supplier. Imported goods from sources from outside the UK and EU are potentially more at risk for slavery/human trafficking issues. The level of management control required for these sources will be continually monitored.

QSC Safety will not support or deal with any business knowingly involved in slavery or human trafficking. Directors and senior management shall take responsibility for implementing this policy statement, its objectives, and shall provide adequate resources and investment to ensure that slavery and human trafficking is not taking place within the organisation or its supply chains. A full copy of this policy and a copy of the Modern Slavery Act 2015 will be accessible to employees electronically and can be obtained from the HR department upon request. This statement will be reviewed/published annually. This Policy takes into account, and supports, the policies, procedures and requirements documented in our Integrated Management System. The implementation and operation of this management system underlines our commitment to this policy. Formal procedures concerning slavery and human trafficking have been established, including disciplinary procedures where they are breached. Additional procedures ensure this policy is understood/communicated at all levels of the company and is reviewed by the Directors to ensure continuing suitability and relevance to company activities.
